

## BWP/NAD and Young Horse Show Series Announce Stallion Performance Requirement Certification

February 22, 2016

### ***For Immediate Release***

In an effort to promote the development of young approved BWP/NAD stallions as well as to encourage and support their owners to compete their stallions and pass the needed performance requirements from the studbook, BWP/NAD and the YHS will be working together to achieve this goal.

All 4 and 5 year old provisionally approved stallions seeking to complete their performance requirements will be eligible to achieve these at the YHS in jumping or dressage classes. Heights and levels will be adjusted and certified according to the BWP/NAD age group requirement of the stallion. Contact the BWP/NAD or YHS office at each show for more information.
